

Accelerated  
Growth

Taking you all the way.

And a bit further.

The **key partner** in developing your business.

At Accelerated Growth we are decisively at home in a world where IT and AI now are becoming more and more important. This implies that we can assist you in driving technology and paradigm shifts. When supporting our customers our main aim is to contribute to a quick and healthy growth with a long-term perspective. Thus Accelerated Growth can play a key role in developing your business.

## Your pathfinder in digital transformation.

Our main arena is digital transformation. That means using digitalization to boost business and to create completely new business concepts.

This is an arena where data, features and communication have the potential to create strong growth for our customers. At Accelerated Growth we are the pathfinder and obvious partner in meeting those challenges by leading the digital transformation and providing advice along the way.

## Cutting edge competence and experience.

Accelerated Growth is your business partner with cutting edge competence, knowledge and experience. We have leading expertise in areas such as management consulting, business analysis and all levels of architecture management. And we can offer you complete custom-made teams with several consultants within the areas above to implement major changes.

## Management consulting to improve your performance.

At Accelerated Growth we specialize in change management, interim management and project management. We will be right there with you to implement change and help you navigate to reach your objectives.

We will support your organization with resilient and experienced leaders. They all have the understanding and knowledge of the rapidly changing world, and are highly qualified in agile and lean ways of creating results.

## Business analysis to develop your operation.

Business analysts from Accelerated Growth can handle what we see as the core business analyst role. This means taking responsibility for investigating business situations and identifying and evaluating options for developing business systems.

We can also define requirements and ensure the effective use of information systems in meeting the needs of your business. We can evaluate actions to improve the operation of a business system. And we can document the business requirements for the IT system support using appropriate documentation standards.

## Architecture management to increase your efficiency.

Architecture is all about planning, designing and constructing structures.

Our architects have cutting edge competence to lead the process in designing, explaining and redesigning structures. We can offer you architects who work at every level - enterprise, system, hardware, network and software. All with the ability to increase the efficiency of your organization's structures and their different parts and elements.

**ACTIVE  
COMPETENCE  
DEVELOPMENT**  
to help our  
customers go all  
the way and  
a bit further.

**ASSIGNMENT  
FOLLOW-UP**  
to assure we are  
performing at least  
according to  
expectations.

**INTERNAL  
ASSIGNMENT  
AUDITS AND  
SUPPORT**  
to optimize our  
performance.

**QUALITY  
METRICS**  
in order to monitor  
and take actions  
when needed.

## Consulting **beyond** the call of duty.

Accelerated Growth is your confident pathfinder in a disruptive environment where IT and AI are becoming increasingly decisive.

We are your persevering pathfinder who won't give in until you have the optimal response to your requirements.

We are your passionate pathfinder who will find the way to a solution that at least meets your expectancies – and often surpasses them.
